### About me:

I am a web developer / designer. I created my first web page in 2014 in HTML, from then I knew that programming is the type of job that I will be excited to do every day, so I started taking courses online and improved my self as a developer, lately I decided to be a full stack developer, so I did improve my designing skills as well.

### Career Goals:

- 1- Continue learning and becoming a better developer/designer.
- 2- Owning a Tech related business.

### Skills:

Technical Skills	General Skills
<ol style="list-style-type: none"><li>1. HTML / CSS / Sass</li><li>2. Javascript / jQuery</li><li>3. Node JS / Express js / PHP</li><li>4. MongoDB / MySQL / Firebase</li><li>5. Gulp / git</li><li>6.
